Some of our most exciting opportunities in life come during transitions. An approaching transition for Canton Country Day School students is the move to secondary school. Whether your child will select a boarding school or enroll in a local high school, there are ways to make this a positive and productive transition.

Representatives from 25+ high schools will attend. Admissions counselors and printed materials outlining academic, co-curricular and summer programs will be available.

Please take this opportunity to learn more about the wide range of options open to CCDS students. **Even if you have already made your initial selection, this is a perfect time to strengthen that decision.**
